The Bedford Gazette.

AN IRISHMAN'S LETTER.

The following characteristic letter, written by a Hibernian of six years' experience of American institutions, we copy from an exchange:

NEW YORK, Feb. the 14.

My dear Mary, the darlint of me hart and sowl, I am well, but had the favor and agor, and I hope you are in the same condition, thanks be to God. I wish you many happy New Years, and the children, and hope you will have three score and tin of thim. We had Christmas here, but the haythens don't kape it like we used at home. Divil the one iver said to me, many happy Christmas, or bad luck to ye, or any other politeness. I didn't get a Christmas box until I was goin home that night, and a night walkin' blaggard gave me one on the eye, and axed me for me money. I gave him all I could, about a score of *pounds*, which knocked the *cents* out of him. They tell me that the nagur is going to be the white man in future, and that the white nagurs in Congress (a public house in Washington) are goin to try the President for being a white man. If they find him guilty, and there's no doubt about it, for they are accusers, witnesses, lawyers, judges, all in one, they're goin to execute the executive, make a fellow called Coldfacts president, and remove the sate of government to a place called *Bosh*-ton, celebrated for its Republicans and sinners. Thim is the same as the rediculous fellows they call ridicules—no radicals—saving your presence. They want to continue their own power—God betune us and all harm. They say the Southerners must go down on their knees to them. They forgot that the poor divils are flat on their backs in the dust already, and they're a mane set to kick a man whin he is down. Be jabers it makes me blood bile to think of it, and that's the rason I'm running over this paper. One war is no sooner over than they commence the beginning of another in washington, and God only knows where, or whin it may end. I lost one fine leg in the last, but I have another left for a good cause, and I'll fight for Johnson, for I hear his great grandmother by his forefather's side, was an Irishman.

We have snow and frost here now, and it is likely we will have more weather. The temperance men—God save the mark—in a place called Albany, where the people send Ripresentatives to chate them, have stopped our grog, only by daylight. Divil a much matter anyways, for they don't kape a dhrap of dacent drink in the country—no rale ould Irish potheen, a tumbler of which would charm the heart of a wheelbarrow, or make shovel donce—nothing at all but stuff that would kill a pig if he had to live on it, much less a Christian baste.

Reminber me to Jim; tell him he's well, and ask him how I am. Tell Tady McFinn if he comes out here, he'll see more of America in one day than if he staid at home all his life. I'm glad his wife got over the twins, and hope she'll do better next time. There's room for improvement. I like this country, but there's no place like ould Ireland, where you'd get as much whisky for a shilling as would make tay for six people. If you don't git this, write and let me know. If you don't write soon I may be dead, for life is oncertain under the radicals, but dead or alive, I'll answer your letter. Address your dear brother Jimmy, New York, America, and I'll axe for a letter from me darlint sister.

POULTRY.—STRAY GRAINS.

Garlic fed once or twice a week is excellent for colds.

See that plenty of pure water is within easy reach of your chickens on frosty mornings. Also feed early.

Pulverized charcoal given occasionally is a preventive of putrid affections to which fowls are very subject.

Feed your poultry raw onions chopped fine mixed with other food, about twice a week. It is better than a dozen cures for chicken cholera.

Pulverized chalk administered with soft feed will cure diarrhœa. This disorder is caused by want of variety in the food, or by too much green food.

Close up all cracks in poultry houses near the roosting poles. Fowls very much dislike air which reaches them through cracks and crevices.

Fowls exposed to dampness are apt to be troubled with catarrh, which will run to croup if not attended to. Red pepper mixed with soft feed, fed several times a week, will relieve the cold.

The place where the young chickens retire to ought to have a dry floor and be kept scrupulously clean, and as the floor is the coldest part of a room, their roosting box ought not to be more than twelve inches high, and to be slanting, which will keep the warm air in the roost.

Setting hens can be cured by putting water in a vessel to the depth of one inch, putting the hen into and covering the top of the vessel for about twenty-four hours. The vessel should be deep enough to allow the fowl to stand up. Give it air.

Earth-worms are greatly relished by confined fowls. Take a spade once a day and turn over the ground for your hens. They will soon run after you when they see you with the spade, and will amply reward you for the extra trouble to accommodate them by an increased supply of eggs.

THE MEN WON'T PROPOSE.

Because they are afraid of the enormous expenses of housekeeping. It requires a little fortune, now, to buy a house, and every article of furniture costs about three times as much as it did years ago. Young men of spirit (and they are the only ones worth having now) begin to count the cost of wedlock. When they see the extravagant length to which our daughters go in their dress; when they look at the splendid mansions in which their fathers live, their minds begin to run in this channel: "She is a charming girl; in fact too good for me; but to place such a trusting creature in a condition inferior to the one in which she now finds herself, would be dishonorable," and I must forego the happiness of marrying her, even were she willing, until I have obtained the means of placing her in a social position worthy of her." And while he is bending his energies to bring about this end, years creep on; opinions have changed, views of life have altered; the affections have become chilled and the mind hardened with attritions of men; preferences have been diverted, and in too many cases an old bachelor and an old maid occupy the places which otherwise might have been the abode of a happy family and a delightful association.

Everybody ought to get married who can boast of three things, First, a sound body; second, a sound mind; third a good trade. This as to men. And as to women, they should possess good health, tidiness and industry. With these any young couple can get as rich as they ought to be, or as rich as is necessary to an enjoyable life, if they will only go to housekeeping a little below their ability.

The young should have courage to live within their means; to have more pride in the consciousness that they have a little spare money at home, than in living in a style which keeps them all the time cramped in maintaining. Better to live in one room, with all the furniture your own, than occupy a whole house with scarcely a chair or table paid for.

"MINE GOT VAT A PEOPLES."

Since the burial corps of the Federal Government commenced the work of disinterring the remains of Federal soldiers, who were killed in the battles in Spottsylvania and the adjoining counties, many persons have come on from the North for the purpose of removing the remains of their friends to their homes, and many dodges are resorted to to escape the payment of the freight on these remains. A day or two since a man presented himself at one of the depots near Fredericksburg, intending to take passage on the train for Acquia Creek, and thence by way of Washington, to his home in New England. He had with him a candle box, which he wished to take on as baggage.—The agent of the road, suspecting that it was something more than is usually carried as baggage, refused to allow him to do so, and on investigation, it was found that he had collected the bones of his brother and put them in this small box. When he was informed that box of bones could not go as baggage, he concluded not to go that day, and left the station. The next day he turned up again with his bones in a carpet bag, and thus succeeded in carrying them as baggage. A day or two since, two females came on, on a similar errand. They stopped in Fredericksburg, and, after collecting the bones of their friend, packed them in their trunk amongst their clothing, to escape paying freight on them.

Some years since, a new Prussian minister reached Washington one night and put up at one of the hotels on Pennsylvania Avenue. The next morning at breakfast, an altercation arose between a member of Congress and one of the waiters. Not many words passed before the member of Congress drew a pistol and shot the waiter.—The Prussian, thinking that affairs of this kind were of daily occurrence, raised his hands and exclaimed, "Mine Got, vat a peeples!"

FREEDOM.—A Washington paper, in reviewing passing events, well says: that "Freedom languishes amid the clatter of muskets and the clang of swords. Judicial justice demands patience, investigation, ample leisure and unbiased will. It deals in precedents and applies well-established principles. It laboriously establishes facts and searchingly sifts evidence. It can only be secured by the calm deliberation and skilful labors of men learned in the law and skilled in legal investigation. But military justice must be prompt for the virtue of the soldier is decision. It has no time and less taste for labored inquiry. It is always more or less tainted with passion, for the camp breeds the atmosphere of contention. It is at the mercy of adroit flattery or the keen hope of promotion. It despises the poor and slights the uninfluential. It is warped by the hand of beauty, and too often perverted by petty malice and the baseness of revenge. Yet this is the kind of justice that the House of Representatives would administer to one-third of their countrymen."

A flower garden is the cheapest and most attractive ornament, any dwelling, whether in town or country can possibly have for both boast and beauty.

SOLITUDE OF SINGLE WOMEN.

The following contribution portrays the forbearance of woman, a christian virtue rarely possessed by the opposite sex. Frequently a life of celibacy is borne by the latter from unknown causes:

It is a condition to which a single woman must make up her mind, that the close of her days will be more or less solitary. Yet there is a solitude which old age feels to be natural and satisfiying as that rest which seems such an irksomeness to youth, but which gradually grows into the best blessings of our lives; and there is another solitude so full of peace and hope that it is like Jacob's sleep in the wilderness at the foot of the ladder of angels:

"All things are less dreadful than they seem."

And it may be that the extreme loneliness which, viewed afar off, appears to an unmarried woman as one of the saddest of the inevitable results of her lot shall by that time have lost all pain, and be regarded but as the quiet, dreamy hour "between the lights;" when the day's work is done we lean back, closing our eyes, to think it all over, before we finally go to rest, or to look forward in faith and hope, unto the coming.

A finished life—a life which has made the most of all the materials granted to it, and through which, be its web dark or bright; its pattern clear or cloudy, now can be traced plainly the hand of the great Designer; surely this is worth living for. And although at its end, it may be somewhat lonely, though a servant's, and not a daughter's arm, may guide the falling step, though most likely it will be strangers only who come around the dying bed, close the eyes that no husband ever kissed, and draw the shroud over the poor withered breast, where no child's head had ever lain; still such a life is not to be pitied, for it is a completed life. It has fulfilled its appointed course, and returns to the Giver of all breath as pure as He that gave it.

PURE, PERFECT POETRY.

What is poetry? A smile, a tear, a longing after the things of Eternity. It lives in all created existences—in man and every object that surrounds him. There is a poetry in the gentle influences of love and affection, in the quiet broodings of the soul over the memories of early years, and in the thoughts of glory that chain our spirits to the gates of Paradise. There is poetry in the harmonies of nature. It glitters in the wave, the rainbow, the lightning and the star—its cadence is heard in the thunder and in the cataract—the softer tones gurgle sweetly from the thousand voice harps of the wind, and rivulet, and forest—the clouds and sky go floating over us to the music of melodies—and it ministers to Heaven from the mountains of the earth, the untrodden shrines of the ocean.

There's not a moonlight ray that comes down upon stream or hill, not a breeze calling from its blue air-throne to the birds of the summer valleys, or sounding through midnight rains its low and mournful dirge over the perishing flowers of spring; not a cloud bathing itself like an angel vision in the rosy gushes of the autumn twilight, nor a rock glowing in the yellow starlight, but is full of the beautiful influences of poetry. Earth and Heaven are quickened by its spirit, and the heavings of the great deep in tempest and in calm are but its secret and mysterious breathings.

THE WESTERN WONDER.

The greatest wonder, in the State of Iowa, and perhaps any other State, is what they call the "Walled Lake," in Weight county, twelve miles north of the Dubuque and Pacific Railway, and about one hundred and fifty miles west of Dubuque City.

The water is from two to three feet higher than the earth's surface. In most places the wall is ten feet high, width at bottom fifteen feet, at the top five.

Another fact is the size of the stone used in its construction; the whole is of stone varying in weight from three tons down to one hundred pounds.

There is an abundance of stones in Weight county; but surrounding the lake to the extent of five and ten miles there are none.

No one can form an idea as to the means employed to bring them to the spot, or who constructed it.

Around the entire lake is a belt of woodland, half a mile in width, composed of oak; with this exception the country is a rolling prairie. The trees, therefore, must have been placed there at the time of building the wall.

In the spring of 1856 there was a great storm, and the ice on the lake broke the wall in several places, and the farmers in that vicinity were obliged to repair the damages to prevent inundation. The lake occupies a ground surface of 1900 acres, depth of water as great as twenty-five feet. The water is clear and cold, the soil sandy and loamy.

It is singular that no one has been able to ascertain where the water comes from and where it goes to, yet it always remains clear and fresh.

"IN some places out west the grasshoppers have destroyed everything but grass widows.

A MERCHANT'S advice in selecting a wife, was, "Get hold of a piece of calico that will *wash*."

NATIONAL CEMETERIES.

A Washington correspondent of the Rochester *Democrat* furnishes the following information from official sources.

There are in command of General Thomas the following national cemeteries:

At Natches, on of six acres, containing about 2,500 dead.

Vicksburg, one of twenty acres, containing about 15,000.

Memphis, twenty-five acres, about 12,000 graves. The dead from Columbus, Ky., to Helena, Ark., along the Mississippi river, are gathered here. From Helena to Grand Gulf they are interred at Vicksburg.

Corinth has one of twenty acres. It contains about 6,000.

Pittsburg Landing, twelve acres and 4,000 graves. This contains the dead from up and down the Tennessee river.

Fort Donelson, twenty acres, and 3,500 graves, containing dead of that field, all along the Cumberland below Nashville.

Nashville, sixty-two acres, and 18,000 graves. This contains the bodies from many hospitals and a wide region of country.

Stone River, sixteen acres, and 5,000 graves.

Chattanooga, seventy-five acres, and 12,000 graves.

Knoxville, four acres, and about 3,000 graves.

Marietta, Ga., twenty-five acres, and 10,000 graves.

Andersonville, about 15,000 graves. Millen, 1,000 graves; small enclosure. Savannah, 3,000 graves. Cumberland Gap, Ky., 350 graves. Loudon, 300; Mill Springs, over 500; Perryville 1,200; Camp Nelson, 1,500; Lebanon 150.

In the city cemeteries there are collected at Covington, Ky., 600 dead; Lexington, 1,000; Richmond, 500; Danville 400.

At Columbia, Tenn., there are 1,200 graves.

At Montgomery, Ala., about 500 graves; in Mobile, 1,000.

TOO TRUE.—Says the *Old Commonwealth:*

"When a people are in the throes of a violent political revolution men of mean capacity and brutal passions come to the surface, and for a time the best intellects and men of virtue and great social and moral worth, from an instinctive abhorence of, and fear of contamination by association, shrink from public duties and places of public trust."

Consider society an ocean. The waves, lashed by the storms of opinion and prejudice, have agitated that ocean to the very bottom, and cast to the surface all the human dregs and garbage which, during the still weather of peace, had settled out of sight. Glance, for a moment, at the characters and doings of the persons who have been foisted into high positions through carelessness, passion and fraud, during the past few years of popular agitation. See the Butlers, Stevenses, Ashleys, Schencks, and the rest of that class, who are the storm-cast settlings from the dark and horrid caverns of life's ocean. The whole current is foul through which they have passed to the surface. Their presence and emanations have spread impurity far and wide, until every class of society, and every branch, almost, of the public service is tainted with crime.

Time and quietude would bring relief by sending those filthy and destructive elements back to their dens of darkness, but, knowing this they re-act with their storm-given power upon the waves of passion and prejudice, and are thus hurled again and again to the surface, where, with the froth and foam, they keep up a boil and whirl destructive as a maelstrom to everything that comes within reach. That they are persons of mean and brutal passions no one can deny, and that, in peace, they would sink into oblivion is equally undeniable. So long, however, as the people will permit themselves to be acted upon through their passions and to be kept in a constant state of morbid excitement by those cunning and selfish actors, so long will the country suffer for want of men of true merit and real patriotism as directors and legislators. —*Patriot & Union.*

ROTATION IN CROPS.

The physiology of plants is such, says the Rural New Yorker, that scarcely any two of them take from the ground or the atmosphere the same kind of nutriment in equal proportions. Hence it follows that in continuous cropping of the same product, much of the productive power of the soil and of the fertilizers combined with it is lost or remain inert. This loss may be retrieved by a judicious system of rotation, by which means all the elements of growth are brought into successive action and rendered available for farm products.

Perhaps the order of the crops is not of special importance. One might begin a system with corn; follow with oats, then wheat or rye; and then pasture or meadow, according to the tastes or necessities of the farmer. Some lands will do well in pasture for a series of years. So of the meadows, but as a general rule, the best results are attained by changes every three or four years at the most. If oftener made the chances of remuneration are believed to be improved, while the soil so relieved of the thousand noxious plants which impair its vitality without returning anything of value by way of recompense.

INFLUENCE OF WIVES.

It was not all a dream which made the wife of Julius Cæsar so anxious that he should not go to the Senate Chamber on the fatal Ides of March; and had he complied with her entreaties he might have escaped the dagger of Brutus. Disaster followed disaster in the career of Napoleon, from the time he ceased to feel the balance-wheel of Josephine's influence on his impetuous spirit. Our own Washington, when important questions were submitted to him, often has said that he would like to carry the subject to his bedchamber before he had formed his decision; and those who knew the clear judgment and elevated purpose of Mrs. Washington, thought all the better of him for wishing to make her his confidential counsellor. Indeed the great majority of men, who have acquired for themselves a good and great name, were not only married men—but happily married—both paired and matched.

FRUIT TREES.

As the season for tree-planting is near at hand, the *American Agriculturist* gives a word of caution against the common practice of ordering large trees. A small, well grown tree, with an abundance of small roots, is greatly to be preferred to a tall, much branched one, with its large roots chopped off in digging. Some of the best western orchardists prefer trees one year from the bud or graft to any other.

Plant whenever the soil is ready, taking care first to trim mutilated roots, and shorten back the top. Planting, the present wet state of the soil considered, will generally be left until next month.

TWO WAYS OF DOING A THING.—In the train from Harrisburg was a gentlemanly Jack Tar, in a go-ashore outfit, jolly, genteel and happy, with a decidedly pretty specimen of eighteen year old crinoline, to whom he had been a week spliced, and was conveying Philadelphia-ward. Opposite Jack and his wife were a couple that any one could see were on a honeymoon cruise, the bride all blushes, beauty and bashfulness, and the gallant bridegroom all devotion and endearment. At one of the way stations the cars stopped, and the careful bridegroom thus addressed his timid bride:

"My love, I am about to step out a few moments for refreshments. Do not be alarmed during my absence."

Gentleman Jack took the cue; and patting his little wife on the shoulder, sung out as if he were hauling the maintop-gallant-yard in a gale of wind:

"I say, wifey, I'm going a shore to wet my whistle; don't tumble overboard while I'm gone."

THE SOUL MADE VISIBLE.—Every one knows that in every human face there is an impalpable, immaterial something, which we call "expression," which seems to be, as it were, "the soul made visible." Where minds live in the region of pure thoughts and happy emotions, the felicities and sanctities of the inner temple shine out through the mortal tenement, and play over it like lambent flame. The incense makes the whole altar sweet; and we can understand what the poet means when he says that

"Beauty born of a murmuring sound
Shall pass into her face."

On the other hand, no man can lead a gormandizing, sordid or licentious life, and still wear a countenance hallowed and sanctified with a balm of peace and joy.

ADVICE TO PREACHERS.—Be short and lively. Load up before you enter the sacred desk; announce your text, when the time comes, with distinctness, and dash right into discussion. Fire at point blank range. Keep your eye on that drowsy hearer until he becomes wide awake. Hold the children and those restless young folks under good command. "Give a portion" to the aged ones, who try so hard to catch every syllable you utter, and, under some of the modern pulpit orators, lose about half. Stir up all the people! "Shake off dull sloth" in manner and tone. Be in earnest—tremendously, in earnest! Time is passing; eternity is near; judgment is at the door! Make an impression if you can, inside of thirty minutes; if not, ask God to give his blessing, and—close.

GO TO CHURCH.—There is no one thing which helps to establish a man's character and standing in society more than a steady attendance at church, and a proper regard for the first day of the week. Every head of a family should go to church as an example. Lounging on the streets and in barrooms on the Sabbath, is abomniable, and deserves censure, because it lays the foundation of habits which ruin both body and soul.—Many a man can date the commencement of his dissipation which made him a burden to himself and his friends, and an object of pity in the sight of his enemies, to his Sunday debauchery. Idleness is the mother of drunkenness.

MAM'S GOT HOLD ON MY "TILTERS."—The Smithfield *Times* tells another story illustrative of the old saw that "the course of true love never did run smooth." A young couple in Smithfield had laid a plan to outwit the vigilance of cruel parents and elope. The *Times* tells the sequel thus: The youth stood beneath the window—the lady attempted to climb out—when, oh! horror, some one detained her from the rear! "Why dost thou not come, gentle Amelia?" She answered in an agitated voice: "I can't, Bill, mam's got hold on my tilters."

"YOUNG man, do you believe in a future state?" "In course I duz; and what's more, I intend to enter it as soon as Betsy gets her things ready."

WHAT goes most against the grain of a farmer? A reaping machine.

LEGISLATIVE REFORM.

There is one point in the discussion of this question upon which the Radicals preserve a significant silence. Heretofore, amendments agreed on in convention have been submittted to the people for adoption. Is this to be done now? The people want to know. The tendencies of the times are revolutionary. The party in power are unscrupulous, treacherous and cowardly. What they dare not propose openly they will effect by stealth if they can. It has, when occasion seemed to require, struck down the most vital principles of constitutional liberty. The proposed convention, ostensibly for the purpose of *reform*, may in reality be for the purpose of establishing negro equality. It would be in perfect harmony with the antecedents of this party to cheat the people into a convention on the plea of *reform*, use it when assembled, to white-wash the negro, and when its work was done, assume that it was *sovereign* and refuse to submit its work to the people. What does Col. McClure say on this point?

OUR Legislature seems to have established a national reputation. It is known in Washington, and seems to be in as bad odor there as it is at home. It appears that this imposing body made an excursion to the national Capital to see Senator Cameron sworn into office. Tickets and drinks were free, so everybody went along, clerks, messengers, pages, postmasters, pasters and folders, and the sag-tag and bob-tail generally. Of course they got drunk and had a good time of it. As the crowd was exceedingly select, and (in their own opinion) well behaved, a motion was made inviting them to seats on the floor of the Senate, but the Senate "couldn't see it." One Senator said there were one hundred and thirty pasters and folders in the crowd, and that these were the most respectable part of it. Another called attention to the fact that most of the Senators were that day paid off, and had the money about their persons. Another was willing to admit the rag-tag and bob-tail, but not the members. After a running debate of this kind, during which the modest excursionists were waiting at the door to be ushered into the august presence of the Senate, the motion was voted down, only two Senators voting in its favor, whereupon the excursionists adjoured to take a drink. Thus were these men of "great moral ideas" snubbed, jeered and humiliated in presence of the whole country. Every Pennsylvanian will blush that such a rebuke should be merited. When will this cancer on the body-politic be healed? When will this seething, loathesome mass of moral putrescence be buried, that it may no longer be a stench in the nostrils of honest men?

RADICAL legislation is beginning to bear its legitimate fruits. Money is scarce. Labor is at a discount, and capital at a premium. Hard times are upon us. Thousands find themselves unable to pay their debts, and buy bread for their families. All this was to be expected. The opposition to the Democratic party have always been in favor of a monied aristocracy. This they have established during the last six years. Their laws have been cunningly framed to shield wealth and oppress poverty. Labor must *pay*, capital is exempt. Of the two thousand millions of government bonds not a cent is paid in the shape of taxes to support the national treasury. Thus nearly half the wealth of the country is exempted from taxation. Where then is the burden to fall if not upon the laboring classes. It is true, heavy manufacturers and other capitalists pay immense revenues to the government, but all this is assessed upon the value of their wares, and comes eventually out of the pockets of the consumers who are the laboring classes. Is not this so? and if so, how long will it be endured?

THAD STEVENS' "GOBBLE" BILL.—The following summary of Thad Stevens' bill will be found interesting as showing the length to which "loyal" thieves are prepared to go to satisfy their cupidity. No age, perhaps, was ever cursed with a greater number or a baser lot of villains than the present—and they all appear to be in the Rump Congress:

The confiscation bill which Mr. Stevens introduced into Congress confiscates all the public lands belonging to the ten rebel States, and all the lands and other property forfeited by the act of Congress of July 17, 1862, all of which is to be seized, condemned and sold. Out of the proceeds each adult male freed slave is to receive 40 acres, and each one who is head of a family 40 more. Out of the balance a sum of $50 for each household is to be appropriated to the erection of buildings for the use of the late slaves; $200,000,000 is to be invested in United States six per cent. bonds, and the interest added to the pensions of Union soldiers; and $300,000,000 is to be appropriated to pay damages done to loyal citizens by the civil or military government of the rebel Confederacy, under which clause Mr. Stevens would be reimbursed for his property destroyed by the rebel invasion of Chambersburg, Pennsylvania. The remaining sections of the bill prescribe the methods and machinery by which it is to be carried into effect.

INCREASING THEIR PAY.—Mr. Waddell, of Chester county, Chairman of the Committee on Ways and Means in the lower House, has reported a bill increasing the pay of members of the Legislature to $1,500 per annum. They are also to have, besides this large advance, mileage and stationary *adlibitum*. Of course it will pass. Such bills always do; but we hereby give notice to any Democrat in either House, who may vote for this increase of salary, that we will publish his name throughout the State as recreant to his trust, and as a fit object for public reprehension. Let us have a solid vote of the Democrats of the House and the Senate against this bill. That may kill it. We hope no Democrat will think of voting for it.

The present salary of members is sufficient to pay any honest man for his services. If there be one who does not think so he can easily retire and leave his place to be filled by another. There will be no scarcity of candidates. Any Democrat who votes for this increase of pay ought to be immediately repudiated by his constituents. Let them stand as a unit against it!—*Lancaster Intelligencer.*

WASHINGTON NEWS.

WASHINGTON, March 23.

A. H. Garland, ex-member of the Confederate Congress, whom it will be recollected raised the question of the constitutionality or the test oath as applicable to attorneys before the bar of the Supreme Court, and who was admitted to its bar under its decision, has arrived in this city. He is one of the Senators elect from Arkansas. As it is certain that any application he may make for admission to the Senate will be rejected, it is understood he intends bringing the matter before the Supreme Court of the United States.

Surratt will not probably be tried before the next term of the Criminal Court in June. The prisoner and his counsel are anxious for a speedy trial, but for some unassigned reason his case is thus delayed.

The President stated to several members of Congress from the city of New-York, who called upon him to remove Mr. Smythe, that he did not believe in the truth of the charges, and that he would not remove him unless they were clearly established.

Mayor Hoffman is here, and had an interview with the President this morning.

The veto was received this afternoon, and the House passed the bill over the President's objections, by a vote of 114 yeas to 25 nays.

Evidence inculpating Senators Patterson and Doolittle, was read in the Senate this afternoon. Senator Patterson arose in his seat and pronounced it wholesale forgery. Howe defended his colleague, and also pronounced it false, and thought that the Senate ought not to consider it.

The President's veto message of the Supplementary Reconstruction bill was read in the House immediately after it was received.

The President objects generally to the provisions of the bill, and especially to those relating to the registry, no persons being permitted to vote whose names are not recorded.

He says, as the preliminaries to holding Conventions are under martial law, and conducted by the commanding officers, and as there is no appeal from the registry, those in control of it may so act as to prevent the election of such Delegates as may faithfully represent the wishes and sentiments of the State in the Conventions to be called to frame new Constitutions. No considerations could induce him to give his approval to such an election law.

He speaks of the Reconstruction bill, and this supplementary one, as establishing, under martial law, military coercion, and as making political disfranchisement.

He then refers to the remark of Daniel Webster against military governments founded on force and mock elections, and takes occasion to reiterate his views heretofore expressed in relation to the restoration of the Union, expressing the hope that eventually all the States will be admitted to the enjoyment of their rights under the Constitution.

RUTS AND ROADS.—The public highways throughout our county, excepting always turnpikes, are in a most melting condition of mud and misery. Teamsters and farmers, when they visit town, are compelled either to load their wagons very lightly or make a very free use of horse flesh. We shall be glad, and people living in the country will no doubt be pleased, when spring comes in earnest and makes the roads fit for travel.

INCOME TAX.—the income tax is to be on the amount in excess over $1,000 instead of $600, and at a uniform rate of five per cent. The real taxes, insurance and repairs of all kinds are to be taken out of the income. So in effect the income is to be exempt to an average amount of $1,500.

—There is good authority for saying that Ex-Senator Foster, of Connecticut, will receive the nomination of Minister to Austria, in place of Mr. Motler, resigned.

DENTISTRY! DENTISTRY!

A BEAUTIFUL SET OF TEETH FOR TEN DOLLARS

Dr. H. VIRGIL PORTER,
(late of New York city,)
DENTIST,

Would respectfully inform his numerous friends and the public generally, that he has located permanently

IN BLOODY RUN,

where he may be found at all times prepared to insert from ONE TOOTH to full sets of his

BEAUTIFUL ARTIFICIAL TEETH,

on new and improved atmospheric principles.

THE TRIUMPH OF MECHANICAL DENTISTRY,

RUBBER

FOR THE BASIS OF ARTIFICIAL TEETH.

This discovery which has met with such universal approval throughout this and other countries, has seemingly placed *Artificial Teeth* at the disposal of all who require them. Dr. PORTER is now inserting most *beautiful* and *durable*, at prices ranging from ten to eighteen dollars per set.

☞ Temporary sets inserted if desired.
☞ All operations warranted.

TEETH EXTRACTED, without pain, by the use of NITROUS OXIDE or LAUGHING GAS.

This is NO HUMBUG, but a positive fact.
Gas administered fresh every day.

As the Gas administered by Dr. Porter is prepared in accordance with the purifying method of Dr. Strong, of New Haven, Ct., and Prof. Siliman (late Professor of Chemistry in Yale College), he has no hesitation in asserting that it is attended with no danger whatever.

Persons desiring the services of a Dentist, would promote their own interest by calling upon Dr. Porter, as he is determined to spare no effort to please the most fastidious. Dr. Porter's mode of operating will at all times be of the mildest character, avoiding the infliction of the slightest unnecessary pain, and carefully adapted to the age, constitution, health and nervous condition of the patient.

☞ Special attention is invited to Dr. Porter's scientific method of preserving decayed and aching teeth. H. VIRGIL PORTER,
mar29,'67tf. Dentist, Bloody Run, Penna.

DR. SCHENCK'S PULMONIC SYRUP. This great medicine cured Dr. J. H. Schenck, the proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in a few months healthy, robust persons. Dr. Schenck's PULMONIC SYRUP, SEAWEED TONIC, and MANDRAKE PILLS, are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. Schenck, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three dollars.

Please observe, when purchasing, that the two likenesses of the Doctor, one when in the last stage of consumption, and the other as he now is, in perfect health, are on the Government stamp.

Sold by all druggists and dealers; price $1 50 per bottle, or $7 50 the half dozen. All letters for advice should be addressed to Dr. Schenck's principal Office, No. 15 North Sixth street, Philadelphia, Pa.

CHILDREN'S LIVES SAVED FOR 50 CENTS.—THOUSANDS OF CHILDREN DIE ANNUALLY OF CROUP.—Now, mothers, if you would spend 50 cents, and always have a bottle of Dr. Tobias' Venitian Liniment in the house, you never need fear losing your little one when attacked with this complaint. It is now 19 years since I have put up my Liniment, and never heard of a child dying of croup when my liniment was used; but hundreds of cases of cures have been reported to me, and many state if it was $10 per bottle they would not be without it. Besides which, it is a certain cure for cuts, burns, headache, toothache, sore throats, swellings, mumps, colic, diarrhœa, dysentery, spasms, old sores, and pains in the back and chest. No one once tries it who is ever without it. It is warranted perfectly safe to take internally. Full directions with every bottle. Sold by all druggists. KNOW THY DESTINY.—MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a lifelike picture of the future husband or wife of the applicant, together with the date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communication sacredly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. Box 223, Hudson, N. Y. mar1,'67y1

WONDERFUL BUT TRUE.—MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and lifelike picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

FREE TO EVERYBODY.—A large 6 pp. Circular, giving information of the greatest importance to the young of both sexes.

It teaches how the homely may become beautiful, the despised respected, and the forsaken loved.

No young lady or gentleman should fail to send their Address, and receive a copy postpaid, by return mail. Address P. O. Drawer, 21,
mar1m6 Troy, N. Y.

A YOUNG LADY returning to her country home, after a sojourn of a few months in the city, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. IMPORTANT QUALITIES.—BRANDRETH'S PILLS so stimulate all the interior powers of the system that every poison or impurity is forced from the blood into the bowels, and thus passes off. Recent cases of sickness will often be cured by the effect of 6 or 8 Brandreth's Pills, which, when the operation is full and complete, leave the blood as free from poisonous and unhealthy matter as that of a new-born babe. In colds, inflammatory diseases, and even in cholera, their use restores to health sooner than all other remedies, because they take from the blood and bowels those matters upon which pains, cramps, and aches depend for continuance.

Captain Isaac Smith, of Sing Sing, says, thirty of Brandreth's Pills, taken according to directions, cured him of a very severe bronchial affection after other means had failed and he wishes his numerous friends to know the fact.

Brandreth's Pills, Principal Office, Brandreth House, New York. Sold also by all Druggists.—See my name on Government stamp, without which the pills are spurious. B. BRANDRETH.

may11.—1y.

MISHLER'S BITTERS
WILL
CURE ALL DISEASES OF THE SKIN!

Diseases of the skin are numerous and, with but one or two exceptions, may all be traced to impurity of the blood. In many persons this impurity is born in the system; while others acquire it through improper treatment of scores of diseases. Under this head may be classed—

1st, Scrofula,—This disease is hereditary and is transmitted from generation to generation It is caused by a transgression of the laws of nature, both moral and physical; in other words, it is caused by *vice.* Acting as a latent poison, it reduces the vitality of the blood, and weakens the depurating organs, so that they fail to discharge or cast out the impurities that are continually generating in the system. A person physically pure acquires gonorhœa, or some other secret disease; he undergoes a course of mercury, the disease is dried up, and the patient pronounced well. Vain delusion. The complaint is not cured, its channel is only diverted. Instead of making its appearance outwardly, it acts on the internal organs, and scrofula, which is bequeathed from father to son, is the result. Many persons who are perfectly free from all immorality and vice are afflicted with scrofula. They are suffering for the sins of their fathers and laboring under the curse inscribed in the Book of Books. "I will visit the iniquities of the fathers upon their children."

To cure this dreadful complaint it is necessary that the blood should be thoroughly purified, all the organs of the body brought into a healthy state of action, and the system braced up and strengthened by invigorating tonics. Look at the articles used in compounding Mishler's Bitters; see the array of purifying and invigorating medicaments, and say whether there is an article in the whole list of medicines that equals it. We here emphatically assert, without fear of contradiction, that

Mishler's Bitters will Cure all kinds of Scrofulous Diseases.

It purifies the blood, it strengthens the internal organs and aids them to perform their natural functions, it is a stimulant and a tonic and it will cure Scrofula.

2d, Running Sores and Ulcers.—Running sores and ulcers invariably indicate a scrofulous taint. They are caused by the efforts of nature to discharge the impurities of the blood. Many persons afflicted with running sores and ulcers succeeded in drying them up and think they are cured when the skin grows over the sore. They are, however, "but making bad worse," for the impurities that were discharged from the system through the medium of the sore now act internally and cause innumerable diseases and often death. The only true and sure cure for all running sores and ulcers is Mishler's Bitters, a continued and persevering use of which will most certainly effect a *permanent cure.*

3d, Salt Rheum.—Salt Rheum is a vague, indefinite, though, popular term given to almost all the non-febrile eruptions of the skin which afflict adults. It is generally an eruption of vesicles in small, distinct ulcers, accompanied with a smarting, tingling sensation, with a tendency to creep or spread over the adjoining surface. Mishler's bitters are a sure cure for this disease.

4th. Pimples and Blotches.—Pimples and Blotches on the skin are always a sure sign of impure blood. Although never dangerous, except in cases of carbuncles, they are very disagreeable.—Often we will see the most handsome features rendered hideous by great blotches and pimples, and instead of the pleasing look which should irradiate the human face we see nothing but disgusting corruption; for pimples and blotches are nothing but the corrupt accumulations of the system expelled through the medium of the skin. The use of Mishler's Bitters will force these corruptions to be discharged through the natural channels, and thus cures all kinds of pimples and blotches. Ladies who desire a fair complection, free from pimples should bear this fact in mind.

CELEBRATED PATENT
DUPLEX ELLIPTIC (OR DOUBLE SPRING)
SKIRT.

The wonderful flexibility and great comfort and pleasure to any lady wearing the DUPLEX ELLIPTIC SKIRT will be experienced particularly in crowded Assemblies. Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or muslin dress, an invaluable quality in crinoline, not found in any single spring Skirt.

A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the single spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered: preventing them from wearing out when dragging down stoops, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the STANDARD SKIRT of the Fashionable World!

To enjoy the following inestimable advantages in crinoline, viz. superior quality, perfect manufacture, stylish shape and finish, flexibility, durability, comfort and economy, inquire for J. W. BRADLEY'S DUPLEX ELLIPTIC, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against imposition, be particular to notice that Skirts offered as "DUPLEX" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waistband—☞ none others are genuine. Also notice that every Hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other Skirt.

THE OLD GUARD,
A MONTHLY MAGAZINE,
DEVOTED TO
Literature, Science and Art, and the Political Principles of 1776 and 1787.

C. CHAUNCEY BURR, EDITOR.

The success of THE OLD GUARD has been as remarkable as it ought to be gratifying to the friends of a true American literature. It has steadily doubled its circulation each year of its publication, and its publishers have found it necessary to annually enlarge it, to meet the full expectations of its patrons, as well as to realize their own ideal of a first-class Family and Literary Magazine, combined with sound political principles.—To still farther carry out this design, The Old Guard for 1867 will be printed on new type, and enlarged sixteen additional pages, making in all nearly One Thousand Pages of reading matter yearly for the low price of three dollars! Arrangements have also been made to secure the very best literary talent of the country. We will commence in the January number a thrilling Romance, written expressly for The Old Guard, entitled,

JOSCELYN; A Tale of the Revolution;

By Wm. Gilmore Simms, Esq., of S. C.,

the peer of Cooper and Irving, taking the reader back to the birth of the American principle of government, and introducing him to the rebels of 1776. John Esten Cooke, Esq., of Virginia, author of "Surry of Eagle's Nest," &c., &c., will furnish a series of graphic sketches, entitled "The Battles of Virginia," while our present corps of contributors, with some new ones, will continue to furnish articles, making the Magazine second to none in point of literary attraction and ability.—Politically, The Old Guard will stand in the future as in the past, faithfully guarding the Constitution as it came from the hands of Washington, without acquiescing in any of the subversions, under the title of "amendments." It will be continued upon the grand idea that "all is not lost," while virtue and intelligence remain with any portion of the people.

ON SATURDAY, JANUARY 6, 1866, Messrs. TICKNOR & FIELDS began the publication of a weekly journal entitled
EVERY SATURDAY:
A JOURNAL OF CHOICE READING,
SELECTED FROM FOREIGN CURRENT LITERATURE.

Much of the best literature of the day is found in the English and Continental magazines and periodicals; and it is the design of the Publishers of this new journal to reproduce the choicest selections from these for American readers, in a form at once attractive and inexpensive. The publishers believe that such a journal, conducted upon the plan which they propose, will be not only entertaining and instructive in itself, but interesting and valuable as a reflex of foreign periodical literature of the better class.

EVERY SATURDAY is intended for town and country, for the fireside, the seaside, the railway and the steamboat. Its plan embraces Incidents of Travel and Adventure, Essays Critical and Descriptive, Serial Tales, Short Stories, Poems, Biographies, Literary Intelligence, etc., in connection with judicious selections from the admirable popular papers on science which are constantly appearing in foreign periodicals. The value of these papers arises from the fact that scientific subjects, however harsh and dry in themselves, are here treated in so graphic and picturesque a style as to charm the reader while instructing him.

It will be, in short, the aim of its publishers that EVERY SATURDAY shall commend itself by its freshness and variety to all classes of intelligent and cultivated readers.

EVERY SATURDAY will contain each week thirty-two large octavo pages, handsomely printed in double columns, with an engraved title.

TERMS.

Single Numbers, 10 cents.
Subscription price $5.00 per year, in advance.

REASONS WHY
THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. It is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery, (itself famous for its novelty, as well as for its effectiveness,) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions, the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact that after so many years of public trial we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business. and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches but we do assert, without fear of contradiction, that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

SNOW POWDER.—Patented May 29, 1866. This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, WILL NOT ROT the clothes, but will leave them much WHITER than ordinary methods, without the usual wear and tear.

It removes grease spots as if by magic, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following, viz:

It saves all the expense of soap usually used on cotton and linen goods.

It saves most of the labor of rubbing, and wear and tear.

Also, for cleaning windows it is unsurpassed.—With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.

Directions with each package.

And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed THREE CENTS.

The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt. but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied.

Manufactured by HOWE & STEVENS,
260 Broadway, Boston.
Also, manufacturers of Family Dye Colors.
☞ For sale by Grocers and Dealers everywhere. nov30m3.

ASTROLOGY.
The World Astonished
AT THE WONDERFUL REVELATIONS MADE BY THE GREAT ASTROLOGIST,
MADAME H. A. PERRIGO.

She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catasrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives your name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time, of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned. The strictest secresy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

REPARATOR CAPILLI.

Throw away your false frizzes, your switches, your wig—
Destructive of comfort, and not worth a fig;
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, provided entire satisfaction is not given. Miscellaneou.

1867.—"THE WORLD."—1867.

The attention of the public is invited to the claims of "The World" as one of the leading public journals of the country. It is the chief organ of the Democratic Party of the United States, and the foremost advocate of the immediate restoration of the Union. Its highest merits consists in its character as an enterprising and trustworthy newspaper.

The next year bids fair to be a more critical one in the history of our free institutions than even any eventful ones that have preceded it. The first requsite for an intelligent judgment of public affairs is a full and authentic account of facts as they transpire. These THE WORLD always aims to give with consciencious accuracy, and with equal fullness and fidelity, whether they make for or against its own views of public policy. Prompt activity in spreading before its readers every kind of news in which any part of the public takes an interest, is the first duty of a newspaper. and the facilities of THE WORLD for discharging this obligation are unsurpassed by those of any journal in the United States. Whatever else it may fail in, it certainly will not fail to furnish the news, nor to supply it with such promptitude, spirit, freshness, abundance, variety, accuracy and candor, that no class of readers can miss anything of interest which they wish to find. THE WORLD will publish documents and arguments prepared by political foes just as freely as those prepared by political friends; making its own comments on them, of course, but never suppressing or garbling them because they are calculated to damage its own party. Adverse arguments, which it cannot refute, it is content to leave to make their full impression. THE WORLD adopts this rule because it believes no other is honest; because it conceives that its first duty to its readers is to keep them thoroughly informed on every passing subject of importance. In politics, THE WORLD will continue to be the bold advocate of a Liberal, Progressive Democracy. The unflinching champion of Freedom, Justice, Order and Constitutional Rights. The inspiration of its politics is Freedom restrained by Justice; or, to speak more strictly, Freedom pure and simple, in the largest collective measure; the office of justice being merely to protect freedom from encroachments; Freedom of the individual citizen in his rights of thought, speech, religion and locomotion; in his Right to choose his own food and drink, in spite of meddlesome temperance laws; in his Right to make any money bargains he thinks proper, in spite of foolish usury laws; in his Right to buy and sell in all markets, domestic and foreign, in spite of unjust protective tariffs; in his Right to representation in the legislative bodies which tax him, in spite of unconstitutional exclusions; Freedom of collective citizens to assemble for discussion of grievances; Freedom of all local communities to manage their local affairs without central interference; Freedom in every section of the country from the arrogant and unconstitutional domination of other sections; this large and comprehensive idea of Freedom sums up the politics of THE WORLD, which will never be found wanting to this capital interest of the country and of the human race.

In its accurate Commercial Intelligence and careful, reliable market reports, THE WORLD will continue to maintain its present high reputation. A paper published in the commercial metropolis is naturally looked to for authentic information relating to trade, commerce and finance; and this being a feature in which THE WORLD prides itself, it boldly challenges comparison with every journal in the metropolis.

EDITIONS.

The WEEKLY WORLD, a large quarto sheet, same size as Daily, is now printed throughout in large type, and has the largest circulation of any weekly journal published, save one. Its extraordinary success since its union with the New York ARGUS has justified the most liberal expenditures, which will make it unrivalled in interest and value to farmers. Published Wednesday.

1. Its Market Reports embrace the New York, Albany, Brighton and Cambridge Live Stock Markets; the New York Country Produce and General Produce Markets; special and valuable Hop Intelligence; a department of Agricultural Reading; all together composing an unrivalled handbook of current information for the Farmer, Live Stock or Produce Dealer, Country Merchant, &c.

2. A page or more reserved for entertaining Fireside Reading for the Family circle, embracing the freshest and best Stories, Poetry, Religious Reading, etc., and a page for the Discussion of all Prominent Topics of general interest, political, agricultural, financial, literary, etc.

3. Its Digest of the News is not, like most weeklies, a mere waste-basket of the Daily; only matters of interest and importance are chosen from the Daily, while the mass of its contents are prepared especially for the Weekly.

In every postoffice district there should be found some active, public spirited Democrat, who will confer a benefit upon us, his neighbors, and the cause, by counseling with his Democratic friends and making a determined effort to form as large a club as possible for the WEEKLY WORLD.

The SEMI-WEEKLY WORLD is a large quarto sheet, same size as Daily, which, by omitting a great mass of city advertisements from the Daily, contains all its news, correspondence, editorials, commercial and market news. cattle market and provision reports, and a fresh and entertaining miscellany of literature. Published Tuesday and Friday.

The DAILY WORLD affords a complete compendium of, and commentary upon, the news of every day.
